# Sprint 13 plan

## GOALS FOR SPRINT 13

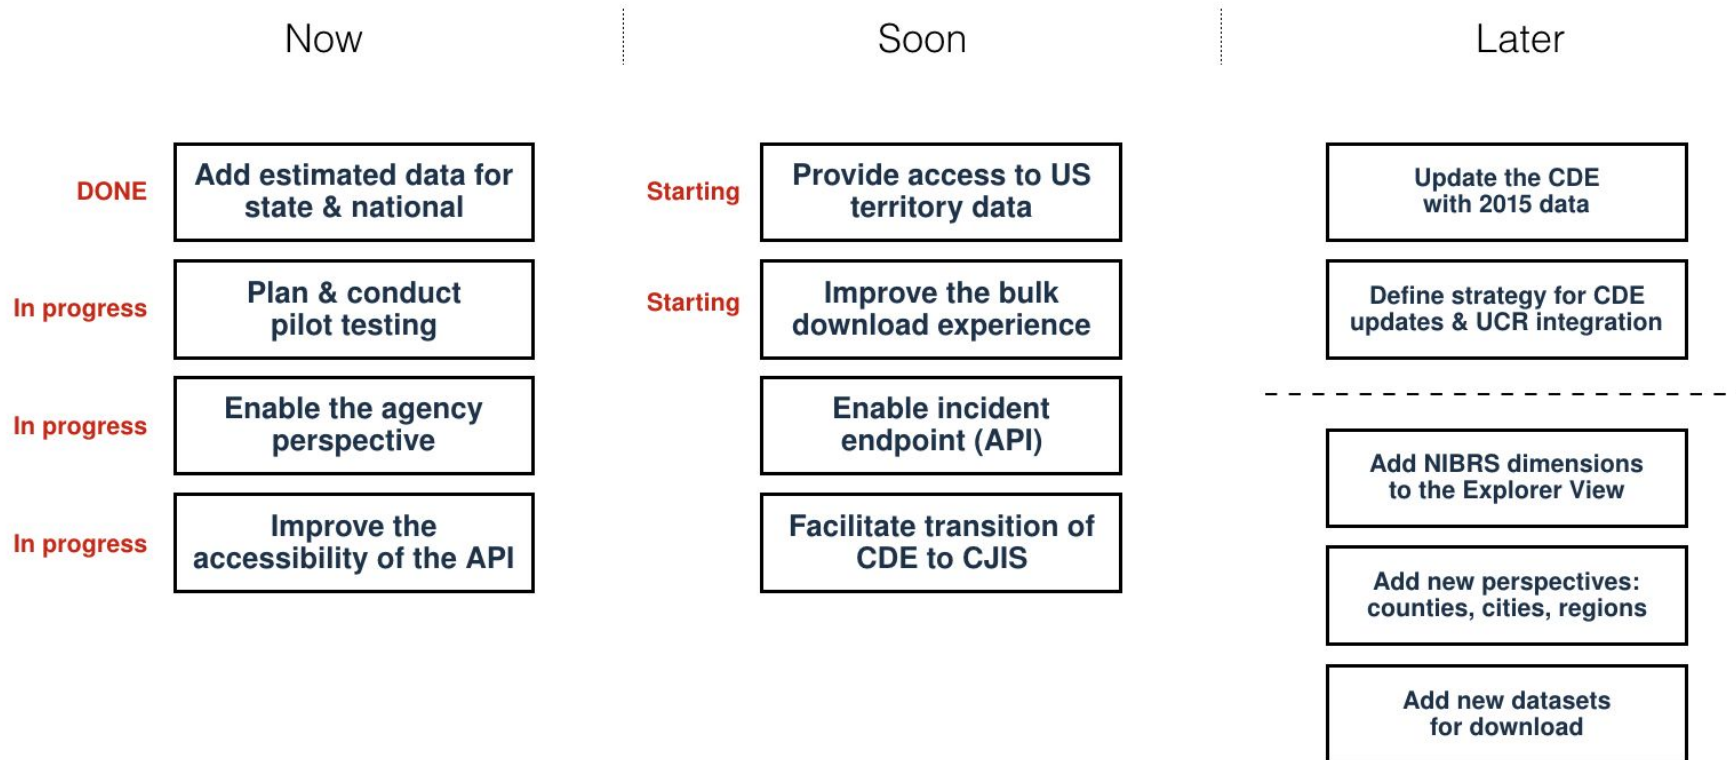

- **Finalize integration work to enable dynamic content for the agency description, bar charts, and NIBRS tables.**
- **Add search functionality so that users may view results by agency type and location (primary county).**
- **Test the latest iteration of the view with users to better understand where refinements are needed.**
- **Improve the download experience by adding detail to the bulk NIBRS reports, refining existing reports to improve usability, addressing limitations with the Human Trafficking and Cargo theft datasets currently made available by the CDE, and resolving a known issue with IE that affects downloads for some users.**

# Questions

## KEY QUESTIONS & CONSIDERATIONS

- **What is the status of securing a transition team? What will the team composition look like? Can 18F assist with team member selection?**
- **What is the likelihood of securing an ATO in time for a late June/early July release of the CDE?**
- **Are reviews by external partners, like OPA, required prior to the launch of the CDE? If so, when will these reviews take place?**
- **How might be 2015 data be provided to the 18F team? Could CJIS provide CSVs with just the newest data for the tables we define? If so, could this data be transferred by SFTP?**
